Dodge Charger ‘Pays Homage’ To Its Daytona Nameplate

CONTINUED FROM PAGE 1

The 2013 Dodge Charger Daytona, say Dodge officials, is meant to bring back the unique style of the historic Daytona package with all the modern performance and technology offered in the current Charger lineup. Only 2,500 units of the Daytona will be produced in this limited-production run.

The Daytona will be available in a unique color palette of Daytona Blue, Bright White, Billet Silver or Pitch Black. The Daytona package features special dark trim that builds upon the Charger’s historic muscle-car design, Dodge officials say.

Satin Black adorns the front crosshair grille with heritage “R/T” badge, the custom vinyl hood graphic, roof wrap, rear R/T spoiler and the “DAYTONA” graphic on the rear quarter panels. The Daytona features exclusive 20-inch five-spoke polished aluminum wheels with Gloss Black painted pockets.

Daytona models will also include a “Daytona Blue” engine cover, performance 3.06 rear axle ratio, high-speed engine controller, paddle shifters with sport mode and performance steering and suspension.

The Charger Daytona’s interior on the Road & Track features unique black performance Nappa leather and suede heated and

ATS Most Significant Cadillac Since First CTS, Says Urban Wheel Juror

cant Cadillac to be launched since the first CTS.

“It showcases new technologies, along with an exceptional driving experience. Quick, nimble, and fun to drive, the all-new 2013 Cadillac ATS is a true compact luxury sports sedan.”

“The ATS,” said Don Butler, vice president of Cadillac Marketing, “is the latest and most significant step in Cadillac’s long-term mission to return to being the standard of the world.

“That makes it especially rewarding to have ATS recognized by experts on the leading edge of cars and culture.”

Each of the *Decisive* magazine Urban Vehicles of The Year will be featured in the winter issue of the magazine, which will also be online at www.decisivemagazine.com.

“The renaissance at Cadillac shows no signs of abating,” said Randi Payton, founder of the Urban Wheel Awards.

“With the good-looking and fun-to-drive ATS, Cadillac is wading into one of the most competitive automotive segments in the market with a very strong contender.”

A compact sport sedan, smaller than Cadillac’s centerpiece CTS product line, the new ATS is the lightest car in its class. It’s offered in rear- and all-wheel-drive versions, with a choice of powerful and efficient four- and six-cylinder engines.

Museum Will Open for Special Events; Chrysler Purchasing Historic Vehicles As Two Foundations Merge on Dec. 31

The Walter P. Chrysler Museum will write a new chapter as it merges with The Chrysler Foundation effective Dec. 31.

Subsequently, the museum’s historic collection of 67 vehicles and displays will be purchased by Chrysler Group LLC, a move that will preserve the company’s automotive heritage for future generations.

Proceeds from the sale, along with the remaining cash reserves of the Walter P. Chrysler Museum Foundation, will be transferred to The Chrysler Foundation which will support a broad range of charitable community activities and organizations.

The museum, which opened to the public on Oct. 5, 1999, was the first on-site museum to be built by a North American automobile company.

“Chrysler will continue to share its automobile heritage

housed at the museum with the public during special exhibitions. The existing museum facilities will also be used to meet Chrysler Group needs,” said Brian Glowiak, president – Walter P. Chrysler Museum Foundation.

“We are very thankful for the generosity of our many members, friends, volunteers and employees and very proud of the museum’s legacy as an educational and cultural institution,” added Glowiak.
